# Eria
ADUROLIGHT

USER MANUAL
SMART LED LIGHTS

AduroLight – Eria is zigbee smart lighting that you can control with your smartphone or tablet. Using the AduroSmart app you can switch your lights on and off, dim, and some lights can also change color temperature and/or change color. The AduroSmart app also lets you set different scenes and set wake up and sleep timers, you can control individual lights, a room full of lights, or the entire house. Even if you don't have your smartphone with you, you can switch AduroLight – Eria smart lights on and off with a wall light switch like you can do with regular lights.
